PSYCHOLOGICAL SERVICES

Psychotherapy is not easily described in general statements. It varies depending on the personalities of the therapist and patient and the particular problems you are experiencing. There are many different methods that may be used to deal with the problems that you hope to address. Psychotherapy is not like a medical doctor visit. Instead, it calls for a very active effort on your part.

Psychotherapy can have benefits and risks. Since therapy often involves discussing unpleasant parts of one's life, your child may temporarily experience uncomfortable feelings like sadness, guilt, anger, frustration, loneliness, and helplessness. On the other hand, psychotherapy has been shown to have many benefits. Therapy often leads to better relationships, solutions to specific problems, and significant reductions in feelings of distress. There are no guarantees of what your child will experience.

Therapy session sometimes involve a large commitment of time, money, and energy so you should be very thoughtful about the therapist you select. Our first few sessions will involve an evaluation of your child's needs and requests so that I can offer impressions and formulate a treatment plan if you decide to continue therapy. You should evaluate this information along with your own opinions of whether you and your child feel comfortable working with me.

CHILD THERAPY CONTRACT

- If you decide to terminate treatment, I have the option of having a few closing sessions with your child to properly end the treatment relationship.
- You are waiving your right to access to your child's treatment records.
- I will inform you if your child does not attend treatment sessions.
- Periodically throughout treatment and at the end of treatment, I will provide you with a summary that includes a general description of goals, progress, and potential areas that may require intervention in the future.
- If necessary to protect the life of your child or another person, I have the option of disclosing information to you without your child's consent.
- You agree that my role is limited to providing treatment and that you will not involve me in any legal dispute, especially a dispute concerning custody or custody arrangements (visitation, etc.)
- You also agree to instruct your attorneys not to subpoen ame or to refer in any court filing to anything I have said or done.
- If there is a court appointed evaluator, and if appropriate releases are signed and a court order is provided, I will provide general information about the child which will not include recommendations concerning custody or custody arrangements.
- If, for any reason, I am required to appear as a witness, the party responsible for my participation agrees to reimburse me at the rate of \$300.00 per hour for time spent traveling, preparing reports, testifying, being in attendance, and any other court-related costs.

OFFICE POLICIES AND PROCEDURES

- 1. Therapy sessions are approximately 45 minutes with a charge of \$250.00 per session. Payment is due in full at the time of the appointment.
- 2. Scheduled appointments are commitments. Please make every effort to be on time. If you are late, time will be lost from your session. If you miss an appointment and fail to notify the office at least 24 hours in advance, you will be charged for the full session fee of \$250.00 unless the appointment is missed due to an emergency or is weather related.
- 3. All records and communications about the patient will be treated confidentially with applicable state and federal laws. These laws may oblige me to report suspected abuse or neglect, domestic violence, and those who pose a danger to themselves or others. Managed care requires that you waive your rights to keep your psychotherapy confidential. They require treatment reports which request information about why you are using your outpatient mental health benefit. They will not authorize and therefore will not pay for sessions without this information
